SANJAY KUMAR S M

Unreal Engine Develeope

SUMMARY

Entry-level Game Developer specializing in Unreal Engine 5 & 6. Expert in building immersive environments, interactive gameplay mechanics, and advanced lighting. Strong foundation in C++, Blueprints, and performance optimization for next-gen hardware.

TECHNICAL SKILLS

Engines: Unreal Engine (UE5/UE6), Blueprints, Niagara VFX.

Technical Art: Post-Process Volumes, Advanced Materials, Lumen & Nanite.

Programming: C++, Data Structures & Algorithms, AI Behavior.

Level Design: Atmospheric Lighting, Environment Storytelling, Collision Mechanics.

PROJECT EXPERIENCE

Next-Gen Environments: Architected high-fidelity 3D landscapes and lighting setups, including a "Game of Thrones" themed level and a mood-focused "Peaceful House" scene.

Gameplay Systems: Developed scalable player movement, interaction systems, and UI counters using a hybrid of C++ and Blueprints.

System Design: Integrated coin collection, timers, and game-restart logic; optimized assets for real-time performance.

Visual Fidelity: Leveraged Niagara and advanced post-processing to enhance atmospheric realism across multiple prototypes.

EDUCATION

Game Development Course (Unreal Engine) | Malger Entertainments | Aug 2025 – Feb 2026

Senior Secondary (Commerce) | June 2018 – April 2020

ADDITIONAL INFORMATION

Content Creation: Active YouTube game streamer showcasing a wide variety of PC titles. Demonstrates strong community engagement, technical streaming proficiency, and a broad understanding of player mechanics across multiple genres.

LANGUAGES: MALAYALAM, ENGLISH, TAMIL.

Portfolio: Project breakdowns and gameplay visuals available on LinkedIn.
